

1. Some ideas that have mentioned are as follows. Please rank each one on a scale of [Create Chart](#) [Download](#) 1 to 9 with 1 meaning no interest and 9 meaning a great idea. You can use the numbers to show your relative ranking of each idea. If you have other ideas you can enter them in the comment box below. We were thinking that the equipment would be provided at no charge for events where the COF collects a levy (e.g. COCs, NAOCS). Equipment could also be used at other events for a nominal charge.

	1-No interest	2-	3-	4-	5-	6-	7-	8-	9-Great Idea	Rating Average	Response Count

1. the sound system would be pretty bulky to ship but it does add a lot to larger events, especially in conjunction with radio controls and particularly if there are high caliber competitors at the meet. Wed, Oct 27, 2010 6:41 PM [Find...](#)
2. Problem if several club want equipment at the same time. This would require a large inventory. Suggest for use at major events. There is always the compatability of technology/equipment. Tue, Oct 26, 2010 5:06 PM [Find...](#)
3. COF equipment could be available as a backup , e.g. splits printer, Main problem is cost and reliability of delivering to event directors on time Tue, Oct 26, 2010 9:24 AM [Find...](#)
4. Database of SI numbers :-) Mon, Oct 25, 2010 4:13 PM [Find...](#)
5. BC clubs have coordinated numbering system; we also loan equipment on a regular basis and receive loans from Alberta. Start and finish clocks would be handy but shipping might be a problem Sun, Oct 24, 2010 6:19 PM [Find...](#)

2. Does it make sense for the COF to have SPORTident equipment, stands, flags and finger sticks when most clubs have some and clubs do lend their equipment to other clubs? [Download](#)

1. Aside from the radio controls, no. Who will maintain it? Our Club (EOOC) takes a very organized approach to maintenance, record keeping, loan and repair of equipment. The equipment is in good shape and available to other clubs and EOOC event organizers. (Free of charge, to the best of my knowledge.) They can be confident that the equipment will work when they borrow it and are expected to return it in the same condition. I think there are more important projects that require COF efforts and leadership; e.g., COF officials certification and training. Sun, Nov 14, 2010 9:24 AM Find...	
2. All good ideas really but yes, does it make sense for the COF to use its limited funds for equipment? We and other clubs are always willing to share. Thu, Nov 11, 2010 7:26 AM Find...	
3. t would be good to learn what other clubs really do have that might be available (i.e. a current inventory of the "national" or provincial resources). Maybe a centralized supply would be overkill? Wed, Oct 27, 2010 7:28 PM Find...	
4. in Edm, we often borrow from the Calgary club but other smaller clubs may not have access to equipment as easy as we do, I expect EOOC would continue to borrow from Calgary and vice versa although another major source might be handy sometimes. Wed, Oct 27, 2010 6:41 PM Find...	

5.	It might be more useful to concentrate resources on things that we don't have a good supply of. Maybe we should save up for a screen and some gps units for use at major events	Wed, Oct 27, 2010 3:55 PM	Find...
6.	No. There would be too much demand from clubs. Within a province, we can coordinate and swap equipment more easily	Wed, Oct 27, 2010 12:09 PM	Find...
7.	It seems to make more sense to have them located at the provincial level at the most. It will be hard for the clubs in the east to benefit from COF having equipment in the west.	Wed, Oct 27, 2010 9:52 AM	Find...
8.	No, COF should not waste their money and time on any SI units.	Tue, Oct 26, 2010 8:57 PM	Find...
9.	Yes if the equipment is required to top of a shortage of equipment by a club that needs gear. You would think that within a province they would support each other.	Tue, Oct 26, 2010 5:06 PM	Find...
10.	seems that COF inventory should be small	Tue, Oct 26, 2010 9:24 AM	Find...
11.	probably not	Mon, Oct 25, 2010 4:34 PM	Find...
12.	Probably not. Currently the clubs do a reasonable job of sharing - possibly best to let the clubs continue to sort it out	Mon, Oct 25, 2010 4:13 PM	Find...
13.	No. For most major events BC clubs have enough equipment between them. For bigger events we borrow from Alberta clubs. We also loan equipment to clubs in other Provinces. We have our own database of control numbers	Mon, Oct 25, 2010 11:24 AM	Find...
14.	No, it does not.	Mon, Oct 25, 2010 7:32 AM	Find...
15.	I don't think this is necessary. Most clubs have sufficient equipment for all meets except, perhaps, for major events. Most clubs don't host major events sufficiently to justify SI and those who do host many major events already have SI equipment or arrange to borrow. it is not necessary for COF to get involved with purchase, storage, shipping of such items.	Mon, Oct 25, 2010 6:17 AM	Find...
16.	Assuming it's new technology, yes, for sure. Also, for large events, good to ensure standard equipment for COF sanctioned events	Mon, Oct 25, 2010 6:11 AM	Find...
17.	No for the West ... don't know about the east	Sun, Oct 24, 2010 6:19 PM	Find...

1.	Contact Barry McCashin to get an EOOC opinion.	Sun, Nov 14, 2010 9:24 AM	Find...
2.	A fair bit of work for someone to ship and receive the equipment and if you buy insurance for the true value, that will cost a bit. I expect some kind of fee, perhaps for shipping/insurance costs might be paid by users. EOOC has a webpage listing our equipment and procedures for borrowing if you want to have a look. http://members.shaw.ca/SI_equipment/	Wed, Oct 27, 2010 6:41 PM	Find...
3.	What about some of the very basic school kits of SI that could be used very easily at smaller events and as equipment to lend to cadets, schools, etc.	Wed, Oct 27, 2010 3:55 PM	Find...
4.	no	Mon, Oct 25, 2010 4:34 PM	Find...
5.	I think the services could be more focused on administration side: * event calendars * SI databases	Mon, Oct 25, 2010 4:13 PM	Find...
6.	Rather than spending funds already derived from clubs (and generating surpluses since 2007) COF should reduce the fees imposed on clubs and leave them to manage their own equipment	Mon, Oct 25, 2010 11:24 AM	Find...
7.	central event registration process available to all clubs central online payments available to all clubs central event scheduling by area 'one stop shopping for O events' I can provide most of this to COF without a fee.	Mon, Oct 25, 2010 6:11 AM	Find...
