

Committee Report to 2018 AGM

Committee Name	Coaching Committee
Committee Chair	Bill Anderson
Committee Members	Magali Robert, Francis Kawam, Brent Langbakk, Jim Blanchard
Report Date	July 28, 2018
Submitted By	Bill A.

Past Year's Work

After all the activity with the Comp-Intro Coach program last year, there was a resurgence of Community Coach training this spring and summer. We delivered 5 workshops for a total of 47 new Community Coaches.

Calgary-Toronto-Ottawa-Kentville-Manitoulin Island. I helped co-facilitate some of the workshops so now we have 4 new fully-trained Learning Facilitators too. Jim B., Jennie A., Jeff T., & Oliver T.

There is on-going interest in the Community Coach program in other cities. Two of the Ottawa workshop coaches were from the Montreal area and are looking forward to delivering the workshop in French. The core material (Reference Manual & Toolkit) has been translated but we need to update the slides and workshop manuals.

We are using managed Dropbox folders to distribute the manuals to the LF's and participants – saving a lot of printing costs.

In the Competitive Stream, many new and Community coaches are taking the Multi-Sport workshops that are part of that curriculum. We anticipate that our first Evaluation-Certification procedure will take place in the near future.

Future Work – Projects and Goals

We will continue to update and improve the workshop materials as we deliver them. There have been many minor changes in the past year, mostly to improve the practical coaching sessions.

There are no major projects planned, just a continued effort to promote and deliver the programs.

We will continue to integrate the details of the Athlete Development Matrix into the workshop material.
