- (c) Changes to usage of a few terms (Organizer/Event Committee) and introduction of Complaints and Protests Committee to improve consistency.
- (d) Inclusion of a pandemic rule.

A few items were submitted to the OC Newsletter.

Submitted a proposal for changes to the Technical Committees Terms of Reference.

Identified some items for next year’s Rules updates.

### Looking Forward

To a more normal year.

Hoping that the rebranding process progresses to the point where the implications for holding what are now known as Canada Cup events becomes clearer so that changes to the Approval process can be implemented.

With the easing of restrictions as the impact of Covid-19 lessens looking forward to more requests for approval for Canada Cup events.
